Amazon Letter < > <https://amazon.com/Show> Scrital Brainstorm Items

amazon

To our shareholders:

In Amazon's 1997 letter to shareholders, our first, I talked about our hope to create an "enduring franchise," one that would reinvent what it means to serve customers by unlocking the internet's power. I noted that Amazon had grown from having 150 employees to 614, and that we had surpassed 1.5 million customer accounts. We had just gone public at a split-adjusted stock price of \$1.50 per share. I wrote that it was Day 1.

We've come a long way since then, and we are working harder than ever to serve and delight customers. Last year, we hired 500,000 employees and now directly employ 1.5 million people around the world. We have more than 200 million Prime members worldwide. More than 1.9 million small and medium-sized businesses sell in our store, and they make up close to 60% of our retail sales. Customers have connected more than 100 million smart home devices to Alexa. Amazon Web Services serves millions of customers and ended 2020 with a \$50 billion annualized run rate. In 1997, we hadn't invented Prime, Marketplace, Alexa, or AWS. They weren't even

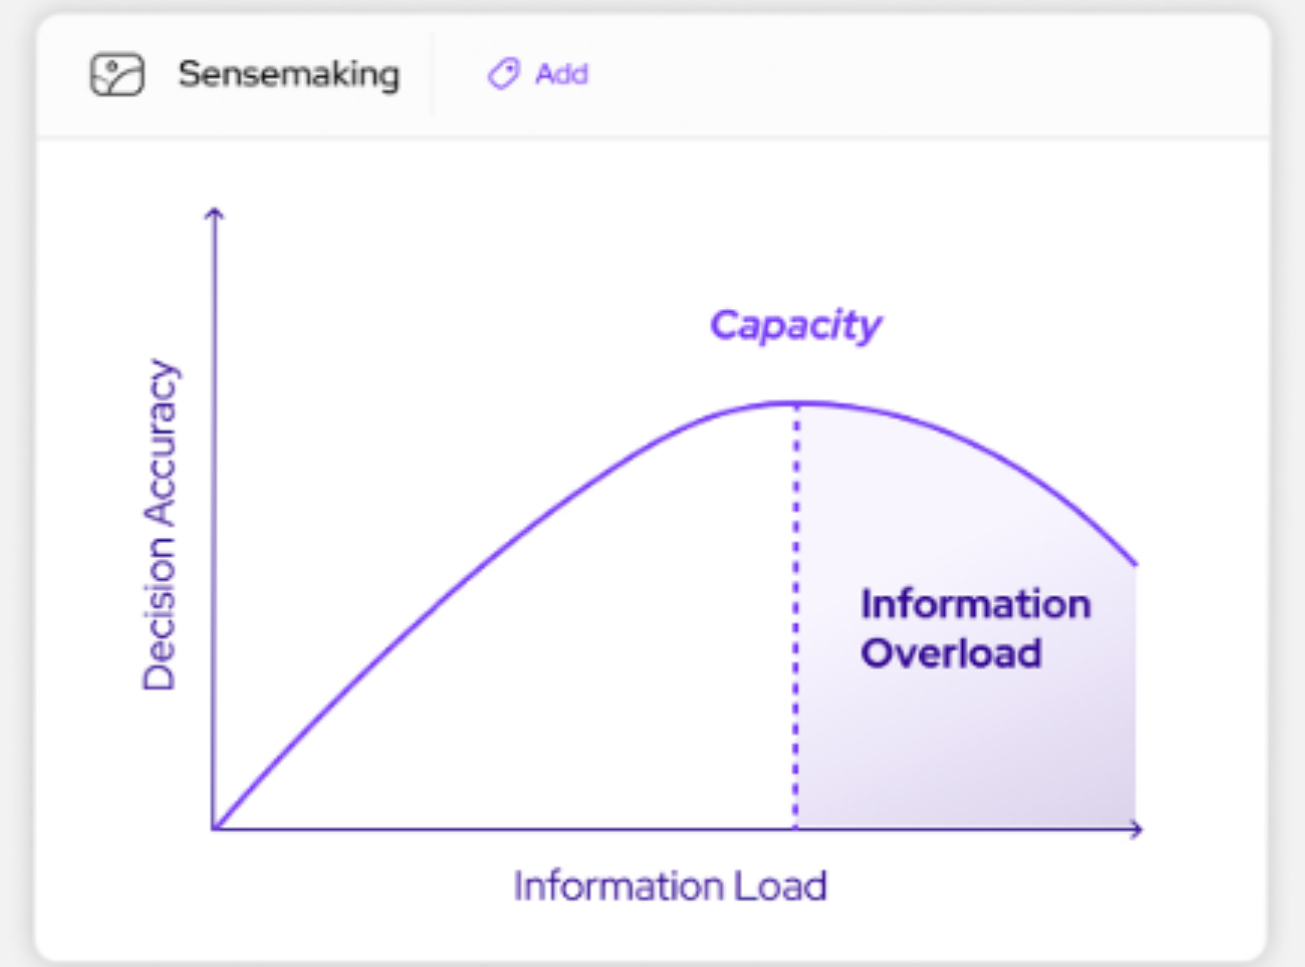

Notes ✕

60% of our retail sales. Customers have connected more

- 60% of people retail sales, this is note for top line. Lorem ipsum
- we are working harder than ever to serve and delight customers. Last year, we hired 500,000

How Much Time and Energy Do We Waste Toggling Between Applications?

by Rohan Narayana Murty, Sandeep Dadiani, and Rajath B. Das

August 26, 2022

Summary. Workers spend a lot of time toggling between apps and websites to do their jobs. But how often do they really do this, and how much times does it really take up? The authors studied 20 teams, totaling 137 users, across three Fortune 500 companies for up to five... [more](#)

Meet Ash

Content Creator

One of over 73M in the US

Opens Google Docs on the laptop to start writing.

Excited with the perfect video found on Instagram.

Takes a screenshot of the message and writes a Post-It.

Opens his phone to find a photo of the restaurant.

Struggles to locate the photo
in a messy phone gallery.

Unable to find it online, he eventually calls it a day.

Wants to collect all ideas and start shooting.

Frustrated by looking for information in different apps.
